

## Dexplore Business Opportunity

### Licensee Testimonials

- "When I first heard of the Dexplore cards idea, I thought that it was brilliant and that it would work really well in the town where I was living. The feeling now of having seen it all through to completion and having the finished product in my hand (and the profits to follow!!!) is AMAZING. Allez...jouez le monde!"

*(Having successfully completed the Morzine deck Ali has now embarked upon her next project ... the Chamonix deck.)*

- "As soon as I saw the Dexplore opportunity I knew it was going to be something I would want to do. Working on the Brighton deck has been so much fun; I have had so much positive response from the local attractions & businesses, the concept almost sells itself. What makes Dexplore so great for me is that I am able to fit it around my 3 young children. It is a fantastic business for me; I can work when I want to, I can work at home or away and it is doing something that I love. I can't wait to get started on my next destination, my only problem is where to choose next!"

- "A friend of mine told me to have a look at the Dexplore site, she thought this would really something for me. I got enthusiast from the start but I told myself to think everything through before I started anything. So I did, and believe me this opportunity has given me the chance to get away from the daily stress and see and learn even more of this beautiful island than I already knew. And the best thing of all, I'm able to relax a bit from my other job, isn't that great!!!"

- "Dexplore has been a great opportunity to explore having our own business at the same time as having the support from Dexplore. The license model has provided great tools and structure at the same time as providing flexibility and an opportunity for us to think for ourselves and be creative. Our first deck has provided lots of key learnings that we are excited about taking forward to work on other decks and travel around the world."
